

Where

**will The NUS MBA
take you?**

Asia is home to 60% of the world's population and several of the world's most dynamic and vibrant economies.

Singapore, a global business hub, houses over 4,000 multinational companies and a thriving start-up ecosystem.

Whether you're seeking to further your career in a regional or global corporation, a niche or emerging industry, or looking to join a start-up, abundant opportunities await. Our graduates are highly sought after in a diverse range of industries in Singapore and beyond.

“There is a general notion that MBAs are for those predominantly from or targeting consulting and finance industries. I was happy to discover that The NUS MBA is much more diverse than this and covers a wide variety of industries and professions, including tech, entrepreneurship, healthcare, education, energy, and construction. This enhances the learning experience and gives us a broader choice of employment after graduation.”

Stanislav Borisov | Russia

Class of 2020

Innovation Manager at EcoLabs - Center Of Innovation For Energy
